FOR IMMEDIATE RELEASE

Turbo-Screws® Technology Granted Patent in Mexico

Plastic Engineering Associates Licensing, Inc.("PEAL") of Boca Raton, Florida, is pleased to announce that Mexican patent authorities have granted Mexican patent protection for Turbo-Screws® technology foam screws.

Bill Fogarty, V.P. of PEAL, commented: "We are very pleased to have the Mexican patent authorities grant our technology patent status. We look forward to providing our foam feed screw technology to the major players in the Mexican food packaging industry, including those interested in producing bio-degradable foam from NatureWorks Bio-Polymers. It is also the world's highest productivity foam feed screw technology in the insulation/plank foam business."

PEAL is a Florida corporation that holds the exclusive licensing rights to Turbo-Screws® technology. Turbo-Screws technology is patented in the USA and in over 40 countries world-wide.
